Comview Moves to New Larger Offices in Huntington Station N.Y.

Additional staff and growing business need more space

Huntington NY -- Comview Corporation, a leading provider of telecom cost management services, has announced that on January 13th they moved into larger offices at 110 Walt Whitman Road in Huntington Station N.Y. The move to larger offices was necessitated by the hiring of additional staff in the areas of software development and customer support.

"We've been growing at a 20% annual rate," said John Perri, President of Comview Corporation. "It became obvious to us that we needed larger facilities to accommodate our forecasted growth and maintain our high level of customer service and new product development. With our new offices, this need for more space is more than satisfied."

The Huntington Station office will house Comview's sales, technical support, software development, administration, and executive staffs. Comview also maintains an operations office in Collegeville, PA and additional sales offices in Palm Harbor, FL, Milwaukee, WI, and Chicago, IL. All of Comview's offices are now tied together in a single network with an IP-based phone system that handles both voice and data. The system will increase productivity, and improve communications with customers and between employees.

"It's always disruptive to move to a new location," said Perri. "But, now that we have settled in to our new home, we are very happy to be here."

Comview Corporation

Founded in 1997, Comview Corporation is a leading provider of telecom cost management services. Comview takes the hassle out of telecommunications management by providing outsourced Web-based Call Accounting and Wireless Management, Comprehensive Audit, and related services. Comview saves its customers substantial day-to-day management time and reduces telecom operating expenses. Its services are used by major organizations throughout the U.S. and abroad. For additional information about Comview, visit their Web site at <http://www.comviewcorp.com> or call 800-864-9094.
