Comview awarded Advanced Partner status by Siemens

Comview to work closely with Siemens in providing world class Telecom Expense Management Solutions.

Huntington Station, NY – October 2, 2009 – Comview Corporation, a leading provider of telecom expense management services, announced today that it has been accepted as an “Advanced Partner” in the technology category of its Enterprise Partner Program. The agreement allows Comview to work with all divisions of Siemens, including Managed Services and Siemens Healthcare. Both companies will benefit from expanded marketing cooperation and new service creation. Siemens’ customers will benefit from new solutions that incorporate Comview’s proven Telecom Expense Management solutions.

The partnership between Comview and Siemens is not entirely new. The firms have been providing combined product solutions for over four years now. What the Advanced Partner relationship does provide is even greater cooperation in bringing the mutual strengths of these two market leaders together with the goal of providing the most effective solutions in the market.

“We are thrilled to have been selected as an Advanced Partner by Siemens,” said John Perri, Comview CEO “Over the past 4 years, Comview has successfully converted hundreds of Siemens customer locations from their current CDR reporting solution to Comview’s Total Talk Management. Every single Siemens/Comview customer is a satisfied customer and a reference for the Comview Total Talk Management Solution today”.

Comview is a leading provider of web-based telecom expense management solutions. The firm’s flagship offering, Total Talk Management, combines Call Accounting and Wireless Management on a single platform. Comview was the first to offer Web-based Telecommunications Management Solutions beginning in 1999. Comview was early in the TEM market as well, working with customers as early as 2002 to provide enterprise TEM solutions for voice, data and wireless services through its association and partnership with industry leaders.

About Comview Corporation

Comview unlocks the value hidden in business communication expense. Comview's products and services allow businesses of all sizes to recognize the waste in communications use and spend and to realize the savings associated with making strategic changes to existing contracted carrier services. Founded in 1997, Comview's products and services encompass a broad range of communication platforms including: Wireless, PBX, VoIP, Conferencing and more. The company's flagship offering, Total Talk Management, provides decision insight that comes from a single view across all voice communication platforms and contracts. Comview's services are used by major organizations throughout the U.S. and abroad. For additional information about Comview, visit their website at www.comviewcorp.com or call 631-935-1901.

About Siemens Enterprise Communications

Siemens Enterprise Communications is a joint venture between The Gores Group, a leading private equity firm, and Siemens AG.
