Comview announces Telecom Expense Management Webinar Series

Series led by industry visionary Joe Basili will focus on the most pressing challenges facing telecom expense management professionals and their organizations.

Huntington Station, NY – October 26, 2009 – Comview Corporation, a leading provider of telecom expense management services, announced today that it will be sponsoring a three part webinar series squarely focused on the most pressing challenges facing telecom expense management (TEM) professionals and their companies.

The webinars, led by Joe Basili, President and Research Director of Network Trends Now and Managing Director for the Telecom Expense Management Industry Association (TEMIA), cover a range of topics that are both relevant and timely.

The first webinar, scheduled for November 11, 2009 at 12:00 Noon EDT, will cover Finding the Right Mix of Mobility Services for your Organization. The session includes a comparative Maturity Model and will include live audience polling.

Other scheduled webinar topics include Tips Tips To Eliminate Common Headaches in Managing Mobile and Fixed Telecom Services, scheduled for Thursday December 3, 2009 12:00 Noon (EDT) and Who should pay for Mobile services? Determining whether a Corporate Liable or Employee Liable Mobility Plan is right for your company, scheduled for Thursday January 7, 2009 12:00 Noon (EDT).

Registration for any of the webinars has been made available on the company's website, www.comview.com.

“We are pleased to be able to present these webinars -- we think they will answer quite a few questions for TEM professionals who are struggling with an exploding number of devices under management and mounting pressures to reduce costs,” said John Perri, Comview CEO “Over the past year, we’ve listened to our clients as they describe their most pressing challenges, the topics we choose map to those top challenges,” Perri added.

Comview is a leading provider of web-based telecom expense management solutions. The firm's flagship offering, Total Talk Management, combines Call Accounting and Wireless Management on a single platform. Comview was the first to offer Web-based Telecommunications Management Solutions beginning in 1999. Comview was early in the TEM market as well, working with customers as early as 2002 to provide enterprise TEM solutions for voice, data and wireless services through its association and partnership with industry leaders.

About Comview Corporation

Comview unlocks the value hidden in business communication expense. Comview's products and services allow businesses of all sizes to recognize the waste in communications use and spend and to realize the savings associated with making strategic changes to existing contracted carrier services. Founded in 1997, Comview's products and services encompass a broad range of communication platforms including: Wireless, PBX, VoIP, Conferencing and more. The company's flagship offering, Total Talk Management, provides decision insight that comes from a single view across all voice communication platforms and contracts.
