## **Comview Software Architect Receives Twenty Top Techies Award from LISTnet**

### *Mike Persico honored for innovative telecom cost management software*

**Huntington NY** -- Comview Corporation, a leading provider of telecom cost management services, has announced that their Software Architect, Mike Persico, has received the prestigious Twenty Top Techies Award from LISTnet. The December 15th award ceremony dinner took place at the Huntington Townhouse.

"We're very proud of Mike's achievement," said John Perri, President of Comview Corporation. "He's a brilliant designer, coder and database administrator. Mike knows all the details of many operating systems and programming languages. And, his cutting-edge ideas and programs are always impressive."

The PDA-based software developed by Persico collects phone call data and forwards it -- in near real time -- to servers for immediate review by users of the service. It also parses 911, and other types of calls, and sends an e-mail, instant message, or SMS message to alert users of the call occurrence.

"Mike is our go-to software guy," said Perri. "He always delivers more than asked for, sooner than expected, fully-functioning software. Mike lives and breathes this technology."

### ***Comview Corporation***

Founded in 1997, Comview Corporation is a leading provider of telecom cost management services. Comview takes the hassle out of telecommunications management by providing outsourced Web-based Call Accounting and Wireless Management, Comprehensive Audit, and related services. Comview saves its customers substantial day-to-day management time and reduces telecom operating expenses. Its services are used by major organizations throughout the U.S. and abroad. For additional information about Comview, visit their Web site at <http://www.comviewcorp.com> or call 800-864-9094.

### ***LISTnet***

The objective of LISTnet is to promote Long Island as one of the national centers of excellence for Software and Technology solutions. This is achieved by facilitating collaborations between companies, establishing forums and events for the exchange of information, improving the quantity of the labor force and partnering with companies that provide the High technology Centers necessary for the growth of L.I. software and technology companies.
